Summary

A Frontend Developer with experience building responsive, user-friendly web interfaces using React and Next.js. Skilled in translating design mockups into pixel-perfect, functional components and integrating them with RESTful APIs. Proven ability to collaborate effectively in team environments to deliver clean, maintainable, and performant code. Eager to contribute to a live production project and help achieve key product milestones

Skills

Frontend Development: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

State Management & Validation: Zustand, React Hook Form, Zod

Styling & Animations: Tailwind CSS, Framer Motion, Swiper.js, GSAP

Tools & Platforms: Git, GitHub, Vite, Swagger, Netlify, Vercel

Performance & Deployment: Code-splitting, Lighthouse optimisation, Cloud deployment

Projects

Agro fresh

09/2025 – 10/2025

- Built a direct-to-consumer platform for fresh farm produce, eliminating hidden fees and ensuring price transparency.
- Increased sales for partner farms by expanding their market reach and connecting them directly with consumers.
- Implemented a dual-payment system using Hedera blockchain and Paystack to offer flexible and secure transaction options.
- Designed an intuitive user interface for a seamless and straightforward customer shopping experience.

Nike web application clone

06/2025 – 08/2025

Technologies: TypeScript Next.js Framer motion Zustand Tailwind css

- Developed a modern, animation-driven e-commerce demo inspired by Nike's official website.
- Implemented global state management and user authentication.
- Deployed using Vercel, ensuring global accessibility.

[Live Demo](#) 🔗

Fly emirate clone

01/2025 – 04/2025

Technologies: React TypeScript Framer motion Tailwind css

- Recreated airline booking flow with interactive components and responsive layouts.
- Integrated form validation and micro-interactions for smooth user experience.

[Live Demo](#) 🔗

Smdmanage 🔗

07/2024 – 07/2024

Technologies: React Tailwind css TypeScript GSAP GitHub

- Built an admin dashboard featuring dark/light themes and animated UI transitions.

Achievements

- Delivered multiple responsive production-ready UIs aligned with EU accessibility standards (WCAG).
- Improved app performance by reducing bundle size by up to 30% via dynamic imports and lazy loading.
- Created reusable component libraries, improving development efficiency across projects.
- Collaborated remotely using Git workflow tools, following clean-code principles and CI/CD practices.
